

Version May 30th 2024

Bram Coolen, PhD
Amsterdam UMC

Terms of Use

Thank you for your interest in the Amsterdam UMC PROUD patch. This software Patch is free for use, however, when using this Patch or any modified version of this Patch in a publication or presentation, we would like to ask you to adhere to the following points.

- Please notify us about the use of the Amsterdam UMC PROUD patch at div7-mri-proud@amsterdamumc.nl
- For presentations, refer to this Patch as the “**Amsterdam UMC PROUD patch**”
- For publications, make note of use of the **Amsterdam UMC PROUD patch** in the ‘Acknowledgements’ section using the following options, depending on whether the basic patch was used or whether additional modifications or merges with other institutional patches were made:

“For this study (or insert specific protocol or scans), we used the Amsterdam UMC ‘PROspective Undersampling in multiple Dimensions’ (PROUD) software patch.”

OR

“For this study (or insert specific protocol or scans), we used a modified version of the Amsterdam UMC ‘PROspective Undersampling in multiple Dimensions’ (PROUD) software patch.”

- In case the use of the patch has included considerable involvement by one or more of the AMC researchers, we would appreciate a co-authorship on the resulting manuscript. If involvement is only limited, such as helping with installation and initial tests of the patch, an additional acknowledgement of the Amsterdam UMC team member is appreciated, e.g.:

“We additionally thank (insert name) for setting up the patch at our institution.”

- Publications using ‘Amsterdam UMC PROUD’ will be mentioned on our research group website. These are currently mentioned on: <https://mriresearch.amsterdam/software/aumcproudpatch/>

Disclaimer

Amsterdam UMC PROUD is an investigational patch and is not certified for use in clinical diagnosis. Operation of Amsterdam UMC PROUD on the scanner requires a clinical science research agreement with Philips Healthcare. The patch comes with no warranties. In particular, image quality may be compromised by defects and improper use of the patch. Any consequences of the use of this patch are the sole responsibility of the end-user.
